- Easy operation and maintenance for convenience.
- Wide range of customization options to suit your style and preferences.
- Noise reduction properties create a quieter indoor environment.
- Increased natural light and ventilation improve the overall comfort of your home or office.

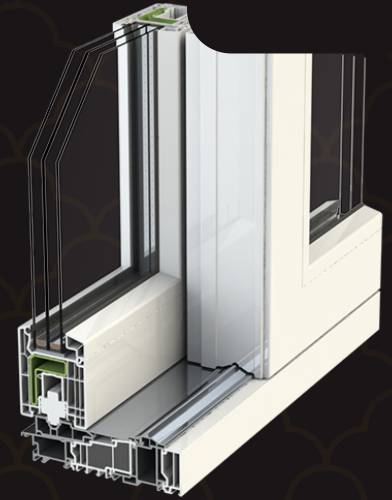

## uPVC SLIDING DOORS & WINDOWS

- Design flexibility with multiple size options.
- 50% to 66% opening options.
- Co-extruded gaskets for better finishing and performance.
- Glazing Options: Single/Double - 5mm to 32mm
- 6 lamination options
- Multipoint locking for security and better sealing.
- Double sealing with TPV gaskets for enhanced thermal and sound insulation with complete protection from dust and pollution.

**50 mm to 135 mm Systems**

## ALUMINIUM SLIDING DOORS & WINDOWS

- Effortless sliding for seamless indoor-outdoor transitions.
- Uninterrupted views with expansive glass panels.
- Streamlined design adds a touch of elegance to any space.
- Energy-saving insulation for reduced utility costs.
- Smooth operation with minimal maintenance.
- Space-efficient solution for maximizing room layout.
- Secure locking systems for enhanced safety.
- Flood your space with natural light for a bright and inviting atmosphere.
- Noise reduction for a peaceful and tranquil environment.
- Create a sense of openness and connectivity with the outdoors.

## Tilt & Turn Windows

Our Tilt & Turn Windows provide a higher degree of flexibility which is suited for any building type. These are inward opening windows available in 60mm casement series which ensure good ventilation.

- 8 mm sash overlap for superior performance
- Imported hardware with high corrosion resistance properties
- Multi-point locking with hardware screw fixed to steel
- Glazing options - 6 mm single glazing / 20 & 24 mm double glazing.

## Combination System

A wide range of combinations (Sliding + Casement) are possible with custom-built aluminium couplers to meet different architectural needs.

- Casement + Casement Fixed
- Casement + Top Hung
- Sliding + Casement Fixed

## Twin Sash Grill & Mesh Windows

Our Twin Sash Grill & Mesh Windows are aesthetically superior. The window system is available with multi-point locking hardware that provides safety and security besides keeping insects out. It also comes with an option of grill only, without mosquito screen.

- 8 mm Sash overlap for Superior performance
- Glazing options - 6 mm single glazing / 20 & 24 mm double glazing

## Top Hung Windows

The Aspire top hung carries all the beauty of a design classic, combined with the latest industry thinking. Aspire top hung holds a host of impressive features that not only add to its good looks, but also enhance the performance of the product as well as ease of fabrication and installation.

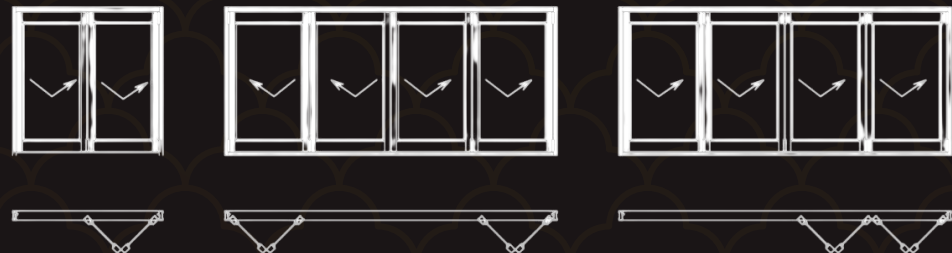

# uPVC SLIDE AND FOLD DOOR

The bifolding door was designed from the ground-up using dedicated upvc profiles that produce a door with slim sightlines yet are strong enough to offer sashes up to a metre wide and capable of being glazed with 44mm triple glazing if required. Door styles of up to 7 panels wide are available and matching single and french doors can also be provided using the same profiles and thresholds so all doors will match.

- Luxurious transformation with VEKA's German-crafted UPVC slide and fold doors.
- Seamless blend of opulence and functionality.
- Exquisite elegance and prestigious craftsmanship.
- Unmatched thermal insulation for a luxurious and energy-efficient space.
- Uncompromising security features for peace of mind.
- Elevate your surroundings with VEKA's prestigious touch of German technology.

# ALUMINIUM SLIDE & FOLD DOORS

Introducing Alupure Slide and Fold Doors: German Engineering at its Finest Experience the epitome of modern design and functionality with Alupure Slide and Fold Doors, crafted with precision using cutting-edge German technology. UV Resistance	High UV resistant	Medium UV resistant	low UV resistant	Medium UV resistant
Sound	Complete Sound insulation	Complete Sound insulation	No Sound insulation	No Sound insulation

## Powder finishing for the colour you want

Thanks to the high quality enamelling of the powder finished profiles, the elements of aluminium retain their original brilliance even after many years and do not need a fresh coat of paint. You can choose from the whole RAL palette with over 200 colours. These RAL colours are available in glossy, matt, and textured.

## uPVC Lamination Options

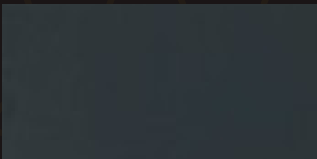

Mahogany

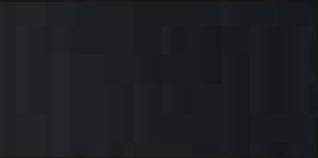

Golden Oak

Rustic Oak

Grey

Black

Walnut

## Anodic finishing for a brilliant look

The process yields brilliant surfaces and characteristic metallic effects. Anodic finishing is a benefit not only for the look. It also provides long lasting protection against increasingly aggressive environmental effects. Furthermore, anodised surfaces are insensitive to mechanical effects and are easy to clean.
